As you can see, there are 21 seminars altogether, and you can attend as many as you want – although only one on each day as the three run concurrently. Just click on [G&B Winter School 2022](#) and put in your selection.

On the day before each seminar I'll send you a logging-in email, and you then click on the link to join in. It's astoundingly easy, but if you've never used Zoom before, please give it a try beforehand by going to [Zoom Test](#) .

And if you're still worried, phone our Zoom expert, Terina Riches, on 01594 529815.

And if your PC, laptop or other device doesn't have a camera and microphone, you can still watch and listen.

There's no deadline for applications, but signing in early will be helpful.

We all look forward to seeing you.
